PSY 3213: RESEARCH METHODS IN PSYCHOLOGY

Professor: Dr. Wolgin / Library Instructor: Rachael Neu (rneu@fau.edu)

Class LibGuide: http://libguides.fau.edu/psy3213-wolgin-fa12

Find Journal Articles Using:

SearchWiSE and PsycINFO

Sample Search in SearchWiSE:

1. Go to http://www.fau.edu/library and enter the following terms into the SearchWiSE box: STROOP EFFECT and AUTOMATICITY

2. Select the “More Options” link under the Terms area on the left. A Subject Terms box will pop up.

3. Select “Include” for terms like: attention, experimental psychology, automaticity, interference, stroop, and numerosity.

4. Select “Exclude” for terms like: emotion, clinical psychology, and schizophrenia.

5. Click Continue, and review your results. Scan the abstracts to determine which journal articles are about how the stroop effect works instead of using the stroop effect to measure some other (often clinical) phenomena.
