**nature.com Complete**

**Platform access to more than 80 journals with archives dating back to 1845**

Nature.com Complete is available for institutions wishing to provide unlimited access to titles not currently licensed under your site license with Nature Publishing Group (NPG), including archived content and archive products, at a fixed annual price.

Access highly-cited research when your users need it, which include complementary web focuses, collections and online specials across the NPG portfolio. With nature.com Complete, the history of science is at their fingertips from the first issue of *Scientific American* back to 1845 and *Nature*’s back to 1869. Explore the seminal papers and articles from the newly-patented sewing machine to the discovery of the hole in the ozone layer.

**nature.com Complete lets your users explore the breadth of content on nature.com from:**

- *Nature* – the #1 weekly science journal*
- *Scientific American* – the longest continuously published magazine in the United States
- Archive collections – access back to issue 1 for *Nature, Scientific American, Nature* research titles and *Nature Reviews* journals
- 8 life science research journals, with 5 as the #1 primary research journal in their category*
- 9 physical science research journals, with 7 as the #1 primary research journal in their category*
- 7 life science review journals - all are the top monthly review journal in their category*
- 8 clinical review journals – with 5 as the #1 monthly review journals in their fields*
- Over 40 society and academic journals
- Web focuses and special collections highlighting topical content, from a *Nature* Special on South American Science to a focus on the Recent slow down in global warming

**nature.com Complete offers:**

- Seamless and immediate access to content on nature.com
- Access to the *Nature* archive back to the first issue in 1869 and the first issues for all other journals on the nature.com platform
- No limit to the number of articles accessed during the supply period
- Provides institution-wide access, 24/7 to your full IP range
- Single account administration, managed alongside a standard site license
- Flexibility to upgrade frequently-used journals to a standard site license and gain post-cancellation rights to content
- COUNTER-compliant usage statistic reports

**Terms & conditions**

- Access to all titles* in the NPG product portfolio, including archive products, which are not currently licensed by a client.
- New title launches are excluded for their first year of publication, however new titles will be included into nature.com Complete upon their second year of publication.
- Pricing is based on an institution’s nature.com ‘access denied’ attempts.
- The client agrees to maintain an active site license for those NPG titles licensed at the time of entering in to the nature.com Complete agreement. Titles that are currently being accessed via a site license agreement may not be cancelled and transferred to the nature.com Complete program.
- Titles licensed under the nature.com Complete license do not qualify for post-cancellation access rights.
- The agreement will run along with your site license agreement and can be renewed.
